

TURKEY POTATO FREE GRAIN FREE BLEND

PRODUCT INFORMATION

Turkey Potato Free Grain Free Blend for adult dogs is higher protein, lower carbohydrate and lower estimated glycemic load. This blend used to be called “Low Glycemic Turkey Blend” but we were forced to rename because there is no glycemic standard established for dogs and therefore can’t claim that it is “Low”. (We publish the estimated glycemic loads for all blends so they can be compared and reviewed with veterinarians.) This blend is often recommended by veterinarians for dogs with diabetes, cancer, weight loss, or those that would otherwise benefit from a lower glycemic diet. Turkey Potato Free Grain Free Blend is 100% complete and balanced so healthy adult dogs can it too!

INGREDIENTS:

TURKEY THIGH, YAM, GREEN BEANS, BROCCOLI, CALCIUM CARBONATE, IODIZED SALT, DRIED KELP, ZINC SULFATE, VITAMIN E SUPPLEMENT, VITAMIN D3 SUPPLEMENT, VITAMIN B12 SUPPLEMENT, COPPER GLUCONATE.

Nutrition Facts

7 food bars per container
